

## **LensCoat® Sony FE 70-200mm f/4 G OSS II INSTRUCTIONS**

### ***Piece 1- Lens Hood Cover***

Remove the lens hood cover from the lens. Carefully slide and stretch the lens cover into place.

### **Remove rotating collar for easy placement of sections 2-5**

### ***Piece 2***

Remove rotating collar for easy placement stretch and slide piece 2 down the lens to the focus ring.

### ***Piece 3***

Slide piece 3 down the lens to just after the zoom ring, the section with the focus hold button.

### ***Piece 4***

Slide piece 4 down the lens to the zoom ring.

### ***Piece 5***

Slide piece 5 down the lens lining up the AF control window. **For final placement pull the window for the slightly away from the lens and adjust to the left or right.**

### ***Piece 6***

Place this piece on the rotating collar on. Align the foot with the opening on this section with elastic going either side of the foot.

### ***Piece 7***

This section is placed on the rear lens section.

### ***Piece 6a***

If you are using the lens without the lens collar this section replaces sections 6 & 7.

### ***Zoom Sock***

The LensCoat® Sony 70-200 lens cover kit includes an optional sleeve to cover the barrel that would be exposed when zooming. With the lens shade off carefully stretch the elastic over the front of the lens onto piece 2 and the other end on to piece 3. As you zoom in the sock will stretch and when it's zoomed out it will slightly bunch up.
