

LensCoat® Pentax DA* 300mm f/4 (IF) INSTRUCTIONS

Piece 1- Lens Hood Cover

Remove the lens hood cover from the lens. Carefully slide and stretch the lens cover into place.

Piece 2

Remove the lens foot for easy placement, stretch and slide piece 2 down the lens to just after the focus ring.

Piece 3

Stretch and slide piece 3 down the lens to the focus ring.

Piece 4

With foot removed carefully slide piece 4 down the lens to just before the focus ring lining up the distance window. **For final placement pull the window for the slightly away from the lens and adjust to the left or right.**

Piece 5

Slide piece 5 down the lens to the last segment above the rotating collar.

Piece 5b

If you are not using the lens foot then you can use this piece instead of piece 5. Slide piece 5b over end of lens lining up the rotating collar knob with the hole.

Rotating Lens Collar

The LensCoat® Pentax DA* 300mm lens cover kit includes a strip of neoprene with adhesive tape applied to the back for the rotating lens collar. Cutout the desired length for the parts of the lens collar you want to cover. Cut the longest piece first. After all the cutting is done then remove the adhesive tape backing by carefully folding back a small corner and apply to the lens collar.
