

LensCoat® Sony 70-200 f2.8 GM OSS INSTRUCTIONS

Piece 1- Lens Hood Cover

Remove the lens hood cover from the lens. Carefully slide and stretch the lens cover into place lining up the scalloped sections.

Piece 2

With the lens hood removed, stretch and slide piece 2 down from the glass to focus ring.

Piece 3

Remove the tripod mount foot on the rotating lens collar from the lens and slide piece 3 down between the focus and zoom ring.

Piece 4

Slide piece 4 down between to the zoom ring.

Piece 5

Slide piece 5 down lining up the window for the AF and controls. **For final placement pull the window slightly away from the lens and adjust to the left or right.**

Piece 6

Carefully slide piece 6 on lining up the hole for the tension knob and the square for the base of the lens foot. The material in the front of the lens foot should sit at a slight angle up the base.

Piece 7

Slide piece 7 over the last segment of the lens.
