

## **LensCoat® Olympus M. Zuiko 40-150 f2.8 INSTRUCTIONS**

### ***Piece 1- Lens Hood***

Remove the lens hood extension from the lens. Carefully slide and stretch the lens cover into place.

Remove the tripod mount foot / rotating lens collar from the lens. This will allow for easy installation of pieces.

### ***Piece 2***

Slide piece 2 to the end of the lens just after the focus ring.

### ***Piece 3***

Slide piece 3 down to the focus ring.

### ***Piece 4***

Slide piece 4 down to the zoom ring.

### ***Piece 5 – no lens collar used***

Slide piece 5 the last segment lining up the cut outs for alignment mark and function button.

### ***Piece 5A & 5B lens collar used***

If you will be using the lens collar then slide piece 5A down to between the collar and zoom ring lining up the function button cut out. Slide 5B over the last segment lining up the alignment mark cut out.

***Lens Collar*** The LensCoat® Olympus 40-150mm lens cover kit includes a strip of neoprene with adhesive tape if you are using the lens collar. Cut out the desired length for the parts you want to cover.
