

## **LensCoat® Nikon 105mm f/2.8G ED-IF AF-S INSTRUCTIONS**

### ***Piece 1- Lens Hood Cover***

Slide and stretch the lens cover into place. (Due to the unique shape of the hood you may want to consider using a small piece of double-sided adhesive tape between the cover and the hood if you have issues with it moving out of position)

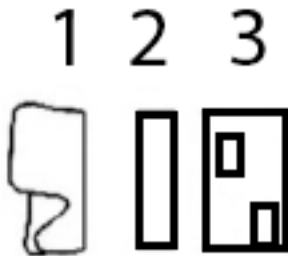

### ***Piece 2***

Slide piece 2 down the lens over the focus ring.

### ***Piece 3***

Slide on piece 3 lining up the distance scale and AF/VR switches.
